The right information when you need it most.

Aged care can be daunting, and one of the biggest decisions your family will make. Beyond the consideration of the right care, there is also the financial side. Fees and charges, government regulations, strange terminology and a never ending list of financial formulas – it's a steep learning curve for anybody and it can become very stressful when there are health concerns of a loved one involved.

That is exactly the reason why Palm Lake Care created Care Solutions – a free service that helps families and health professionals. We give clarity during an often confusing time, helping to tailor fees and financial arrangements to create the right solution for individual circumstances.

Palm Lake Care is affordable to everyone. The Government sets the fees by means testing your assets and income. Even someone with little more than the pension can be cared for in the same beautiful private suite with no additional daily fees at Palm Lake Care.

Paying for care is more affordable than you think.

Minimising the impact on finances is all about clarity, by giving families clear information and options, along with help in securing suitable vacancies for short-term respite, permanent and palliative care. Families can then discuss our no-obligation recommendations with independent financial and legal advisers.

The Care Solutions service is completely free. We receive no percentage, commission or payment from families or the government. It's all about making aged care simpler and less stressful.

Our Care Solutions Team can help with information tailored to individual circumstances. We can give you peace of mind in one free phone call.
